## Three BOC Members Resign

By Eva Grodberg

Three executive board members of the Ithaca College Bureau of Concerts (BOC) officially resigned from their positions on Tuesday, Jan. 10. This resignation was due to what the three describe as "an accumulation of events that have lead us to vent our frustrations."

The resigning members: David Satz, chairperson of BOC; Mark Burg, chairperson of media and advertising and Harry Franzheim, chairperson of personnel and security have issued this joint statement, "We are resigning due to incidents which occurred during and following the David Bromberg concert that made the shit hit the fan."

According to Satz, Burg and Franzheim, tensions have been building between them and their advisor, Matt Connell, assistant director of campus activities, for some time. Connell stated that he recognized a personality conflict between the three and himself, but hoped it could be resolved through discussion among the members rather than making it a public issue.

The Bromberg incident began about one hour before the first

show. According to Satz, Connell approached him and told him that he saw two ushers smoking a joint. Connell said he asked Satz to ask Harry Franzheim to check on the situation. According to Satz, Connell asked him to tell Franzheim to kick out the two ushers.

In accordance with the policies and procedures for ushers, which was written earlier in the year by Franzheim and okayed by Connell, Franzheim explained that he had two options in dealing with the ushers. The ushers could have been asked to leave at the point of infraction or they could be reprimanded and later sanctioned (i.e. asked not to work for BOC in the future). "Under the circumstances of two sold out houses, in the interest of the safety of the audience, I could not justify dismissing two of my ushers. However, I did reprimand them at the point of infraction and asked them never to work at another concert," said Franzheim.

"A while later, Matt pulled me aside, outdoors, and threatened me with my job if I didn't ask the two ushers to leave then and there. With 2000

left to right, Mark Burg, Harry Franzheim, Dave Satz meeting with news writer

people coming to the Strand, that would have been inconceivable," said Franzheim.

"At no time did I tell Harry that his job was in jeopardy. I told him that he was placing himself in a position where his job could be in jeopardy," said Connell.

According to Satz, Franzheim approached him after Connell allegedly threatened his position. Satz said that he then went to Connell and said, "If Harry's expendable, so am I," Connell denies that this statement was ever made.

"We recognize that pot is illegal and that Matt has to protect the interests of the school, but he went about it the wrong way. We're protesting his treatment of Harry, but we also feel that for an extension of Campus Activities, he is creating apathy through his actions," said Satz.

Although there was talk of resignation since the actual occurrence at the concert, the resignations of Satz, Burg and Franzheim were not made official until Tuesday afternoon.

According to Kevin Shaw,

chairperson of the Student Activities Board (SAB), "The incident has been blown-up. There has been a lot of misinterpretation." Shaw was not officially aware of the resignations until Wednesday morning, when he received a note from the three informing him of their decision.

"Now, I'll sit down with the rest of the Board of Directors of SAB to evaluate the situation. There are a million different alternatives, but that's not for me to decide," said Shaw.

## Speech Communications Procedure Defined

By Teryl Reynolds

Speech communication area coordinator Carolyn Gilbert said standard procedure for filling faculty positions has been followed in filling the open position in organizational communication.

Gilbert said normal procedure for filling faculty positions is to first advertise in national publications. The personnel committee then screens the dossiers that arrive, and the faculty selects a small group, usually three, to be interviewed and determines their priority.

Part-time instructor Rick Murphy said that he was unfairly screened from candidacy for the position. Two Referendums signed by 31 speech communication students express concern about the handling of the hiring process and the departments' treatment of Sandra Fish.

At a faculty meeting on Dec. 2, at which Murphy was

screened, Associate Professor Sandra Fish said she was charged with actions which wrongfully promoted Murphy's employment. Fish said she refuted the charges at a later faculty meeting. Murphy and Fish are married.

At the Dec. 2 meeting a Screening motion was made, Gilbert said. Motions could have been made to screen other candidates, she said, but they were unnecessary because the other candidates were not on campus, not did they have a spokesperson on campus.

"The intent of the motion was to screen out the Murphy candidacy," Gilbert said. "The motion was necessary as a motion because of the participatory behavior of Murphy and Fish, (primarily Fish) in the personnel and curricular process, she said.

Dean of Humanities and Sciences Thomas Longin said Murphy asked him to form a

faculty committee to review the search process of the speech communication department.

Provost Lois Smith said Longin referred the matter to her because, "He felt he might be consulted." She said three tenured full-professors from the School of Communications, Health Physical Education and Recreation and Humanities and Sciences have agreed to form a committee to look into the matter and make a recommendation to her. She said she will take their advice seriously and decide the matter.

Gilbert said, "I am disturbed by the interpersonal difficulties surrounding the hiring process in this case. I personally welcome the committee investigating this situation. Any further discussion of the reasons for the screening is inappropriate to discuss in a public forum.

"I will welcome the opportunity to speak to a peer committee about the matter," she said.

## Business Suffers From Bar Scene

Complaints about students and bars downtown are responsible for extra police patrols at night. In spite of this measure, however, such sentiments persist. This article is one example, and another, covering other points of view, will follow in the next issue.

By Ron Ginsburg

Ned Macksoud, owner of Ruloffs and the Colletown Bagelry said he is concerned he will have to close his Aurora street outlet because of problems he has had from a "small nucleus of people, mainly from I.C."

Macksoud said the incidents include harassment of em-

ployees and rude behavior on the part of students. "I don't want to appear like an old man shaking his cane from the porch steps," said Macksoud, "but incidents occur often, just at that shop which stays open after hours until 3 a.m., that violate the personal rights of my employees and customers."

Macksoud said, "These students act differently on campus than they do downtown and their actions reflect on the college and especially on themselves. These people seem to think that they can grow up and become responsible and more mature later, after they

# ITHACAN INQUIRER

What do you think of the complaints of downtown merchants and residents about after-hours noise and vandalism?

**Roy Stuckwell, Management '80**

It's definitely happening and has been happening for a while. It bothers me that students feel the need to get senslessly drunk so often.

**Cathy McCutley, Philosophy '82**

Maybe there should be more after hours parties that are held far away from town.

**Rob Ecker, Economics '82**

I think downtown totally deserves what it gets. The promotional gimiks, like Dimies, attempting to increase profits, result in reckless drunks. The core of the problem is the philosophy of the drinking establishments and not the drinkers.

**Abby Gold, Psychology '84**

It's that they feel that way and if it is happening it's too bad. Students should be more considerate.

**Ben Katzenstein, Politics '81**

I think it's a legitimate gripe, students should sublimate their libidos.

**Debby Milock, Exploratory '84**

I think that they have to realize that this is a college town, and that's what they have to deal with.

**Tom Lewis, Speech '83**

People who distribute liquor should be responsible enough not to sell to someone who is already intoxicated. This might help control unruly behavior. Cheers.

**Karen-Ingrid Evans, Hist./Pol. '82**

Granted, they do make a lot of noise, but it's up to the individual to know how to behave themselves.

## EDITORIAL

*Last week an attack was reported on campus. Since the incident was not a rape, however, its perceived seriousness diminished somewhat.*

*College officials, armed with statistics concerning the scarcity of rape at I.C. quell the fears of nervous students and parents, but the fact that dangerous areas and difficult situations exist anywhere dictates the need for caution.*

*Rape is not the only crime to guard against. Sexual harrassment in other forms is no more pleasant or even more acceptable than rape, nor does an incident need to be sexual in nature to be feared.*

*Students, especially women, should employ caution at all times, regardless of the history of rape on campus, and I.C. should continue to plan lighting for the remaining dark areas of campus. In this way, I.C. can avoid a marred record, and students can avoid harrassment.*

## Frustrated Ex-BOC Members Call for Unity

### To the Editor:

We the following members of the executive board of the Bureau of Concerts have decided to resign our positions and we feel the student body should know our reasons for such actions. We are truly sorry since there is such a bright outlook for the traditional free outdoor show and we would have liked to have been a part of it.

In the past year, we have met obstacle upon obstacle in dealing with our advisor, Matt Connell, the assistant director of campus activities. We recognize that his position is an extension of the administration and their policies, however he has helped to create an atmosphere uncondusive to student involvement.

All of us have put an extensive amount of time in trying to

present the best concerts possible for our campus. In doing so, we require more student volunteers than any other organization on campus. With all of these volunteers, we find that we must be flexible in our attitudes towards their behavior.

As the three of us are all seniors, we have witnessed attacks on student apathy in all activities requiring student par-

ticipation. A reason for this may be due to the friction between the administration or Office of Campus Activities and student body. As representatives of the students, we have decided that we can no longer work under the conditions put forth by the Office of Campus Activities.

Isn't it time that the faculty, the students, and the administration all start to work

together?

## New Service

### To the Editor:

Are you being left out in the cold by problems with red tape? If you are, let ARTIC warm you up. Student Government is now offering a new service, ARTIC (Alleviate Red Tape at Ithaca College).

This service is designed to help students with any red tape problems they might have - such as pre-registration, lost money, etc. If you have any such problem, please get in touch with ARTIC.

The system works as follows:

1. The student picks up an ARTIC form from their RA or RD, the Egbert Union magazine rack, the Student Government Office, or the Registrar's Office.

2. The student fills out the form and returns it through intercampus mail to the Student Government Office.

3. The ARTIC staff will contact this student and try to resolve his/her problem.

You never need to be strangled by red tape again. ARTIC will unsnarl your problems.

# CCLOP Studies College Investment Policies

Steve Hansler

By Steve Hemming

The fact that Ithaca College holds stock in companies that have operations in South Africa has raised concern from a group of Ithaca College students. The Campus Coalition for the Liberation of Oppressed People (The CCLOP) is upset that the college has been investing in companies that through taxation, are supporting the government of South Africa, a country that operates under a system of legalized racism.

Steve Hansler, student

trustee and also vice president of the CCLOP stated that the committee believes that as an educational institution, Ithaca College should endeavor to teach what is the moral and decent treatment of other human beings. By investing in companies that help support racist government, I.C. is in fact contradicting what it is supposed to be teaching.

Of particular concern to the CCLOP, is that instead of divesting, Ithaca College has increased their stock holdings in these South African companies in the past few years.

In the summer of 1979 I.C. retained stock in nine companies worth \$604,238. These shares represented 21.6 percent of the school's total stock holdings. According to the latest update as of Nov. 28, 1980, the college now owns 15,000 shares in nine companies for a value of \$879,063. These current figures represent 32.5 percent of I.C.'s entire stock investments.

Hansler affirmed that the school has maintained its South African stocks because all the companies Ithaca College invests in share signed a statement of rights called the Sullivan Principles. The Sullivan Principles are based on equal rights in working conditions and equal pay for equal work. By keeping the stock, the college hopes to utilize their votes in corporate decision making to make sure that the companies enforce the Sullivan Principles.

However, the college has in actuality not followed its policy in voting on stockholder issues. Hansler said "Carl Sgrecci, the controller-treasurer of Ithaca College, told me that in the past, the school has obtained on any stockholder issues dealing with South Africa. The decisions to obtain were made by Carl Sgrecci with consultation with the Finance and Investment Committee."

Even if Ithaca College did

vote on the stockholder issues, the CCLOP believes that the Sullivan Principles cannot effect real change in Africa because: 1. American corporations employ only one percent of the total black working force and 2. South African law prohibits a company from encouraging any attack on the apartheid system.

In attempt to have a voice in stockholder decision making, on Friday, Feb. 6, Steve Hansler made a proposal to the Finance & Investment Committee asking for a committee comprised of students, faculty, and administration to make the decisions on the stockholder issues. The com-

mittee told Hansler that they were going to continue to make the decisions, but they would keep what Hansler had proposed in mind.

After the meeting Friday, Hansler had this to say about the Finance & Investment Committee's decision "I think that the committee's decisions to abstain on these stockholder issues shows that they are not willing to follow the college's policy on South African investments."

Anyone interested in attending a CCLOP meeting is welcome. Meetings are held on Tuesdays at 5:30 in Room G107.

## Opportunity for Input

By Ron Copeland

Annually, the Traffic Policies Committee (TPC) invites all members of the I.C. community to voice their opinions or concerns about traffic control on campus. The committee is now accepting recommendations for revision of the "Ithaca College Traffic Rules and Regulations" booklet.

Gripes will be taken until Feb. 27 by the TPC and even if you have nice things to say, I'm sure they'll listen to that too. Past reaction to this generous offer has been poor; last year only four proposals were made to the committee,

just one by a student. All proposals are considered, and if considered reasonable, passed on to V.P. of Student Affairs, Richard Correnti, for his scrutiny.

Proposals for revision should be sent to Chairperson Traffic Policies Committee, c/o Safety and Security Department, Ithaca College. Recommendations should be autographed and should be included. This is your big chance, so stop your bitchin' and cussin' about all the quirks and idiosyncrasies in the system. Do something about it.

# Policy on Funds Debated

By JoMarie Kosiarski

The following act was proposed and voted down at the Student Congress meeting on Feb.3:

Student Government will not allocate student government funds to any organization or club which directly supports any national or regional political party. This would include, but is not limited to the following:

The solicitation of membership to any national or regional political party. Direct or indirect monetary contributions to any national or regional political party.

Direct or indirect purchases of any national or regional political party's materials.

Promotion of an awareness of any national or regional political party.

Solicitation of speakers from any national or regional political party speaking for the party or on the party's behalf.

Endorses any national or regional political party, its platform, or its candidate(s) for any political office at the national, state or local level

Advertises or publicizes in form of buttons, poster, literature or the like which bears any national, or regional political party's name of references to any national or regional political party.

This proposal was co-written by Marie Hopper and Wayne Wright. It was seconded by Loring Fisher. Wayne Wright, student congress representative

on behalf of the students of the business school said he believes "Student government funds should not be used to support a national or regional political party." The act he wanted adopted has, in the past, been an unwritten policy of student government. He wants it to be made "actual policy."

The Ithaca College College Republicans (ICCR) were accepted by student congress for organizational status this year. This means that the ICCR are a recognized club of Ithaca College. Among other opportunities, being recognized quarantees clubs the use of college facilities and also enables the organization to apply for student government funds.

The ICCR submitted a budget to Student Congress for the allocation of \$100 for literature, buttons, poster, and a speaker. The proposed budget was voted down by student government.

Representative Wright does not consider it appropriate for students' tuition to go toward supporting any political party. He said, "Student Congress as a collective body represents the total student body. Funding a campus club affiliated with a political party is espousing the ideals of the party. People have different views."

Josh Cantor, acting president of the ICCR says he has no proof but it is his "gut feeling" that if it was another political club asking for funds and the other club had "views not con-

sidered to be conservative" they would be aided by student government.

Cantor said, "we're lucky because the ICCR can turn to the national republicans or another college republican group at Cornell." Cantor's concern is for other groups that want to get started that have no other alternatives, Cantor also said he believes that clubs, political or not, offer part of education and an understanding, and said Cantor, "that's what college is about."

Political organizations such as the campus coalition for the liberation of Oppressed People (CCLOP) which is political in nature but not affiliated with a political party does receive funding from student government.

Wright said that student government does not discriminate. He said he wants this act passed because student government would have "no controll over how the ICCR spent the funds" if the budget allocations are passed.

# Housing Lottery Approaches

By Peeka Bunnell & Diane Vaccaro

It is the time of year again to begin thinking about where you're going to live next year. Following is an outline of the procedures which must be met by each student to ensure on-campus housing for next year.

First, a \$200 deposit must be received by the Bursar's Office by March 15. This entitles the student to a control card which is required for admission into the lottery process. On March 23 and 24, the lottery will take place in the games room on the third floor of the Egbert Union. The actual lottery consists of the students presenting

housing officials with a control card, then drawing a number in their respective class.

On March 26, in-dorm sign-ups will take place. If a student desires to remain in the same dorm, not changing the status of their room (a move can only take place from double to double or single to single) they may do so on this day and avoid the lottery.

On April 1 and 2 in the Terrace Dining Hall, there will be room sign-ups for those students who wish to move from the dorm they now occupy.

For those students interested in living the Garden

Apartments or Hudson Heights, applications will be available from the Housing Office March 16 and are due no later than March 23 by 5 pm. On March 26, a list will be posted on who has received placement in these areas. On March 30, the actual sign-up for specific apartments will take place. There are no squatter's rights in the Garden Apartments as there are in dorms. Junior combinations

for the Gardens should consider Hudson Heights because many did not receive placement last year.

Students requesting to move off campus must apply through the Office of Residential Life by March 20.

Please note there will be designated triple rooms and more specific information will be distributed by the Office of Residential Life.

## Less Than 100 Days Senior Class Officers

### Plan Year End Festivities

By Kevin Kern

Talking to Senior Class President Sue Trevaskis on the phone was my original intent to find out who and how the Senior Class picked their guest commencement speaker for this Spring.

I was told that the process started last April when juniors were invited to submit ideas for '81 candidates. After that meeting a five member selection board of Student Body President Jim Leech, Senior Class President Sue Trevaskis, President Whalen, Vice President of Student Affairs Richard Correnti, and Faculty Council Chairperson Harold Emery found themselves with about 60 possible candidates to siphon down into one by this May.

The process is long and complicated. Each candidate would be researched and cost, political background, views, and student appeal would have to be carefully considered. Said Trevaskis, "We don't want what happened three years ago with guest speaker

Senator Patrick Moynihan. Many of the seniors got up and left the exercises as he started his speech. She also added, "As of right now, I'm not able to say who it will be this year."

"The Senior class is really pushing for a great last 100 days," said Trevaskis. Thanks to the help of many people among whom are Kevin Gage, treasurer, Gary West, vice president, and Ellen Wahl, secretary, fund raisings have been very successful.

Some of the things that the Senior Class has planned are, another party at the North Forty, an outdoor concert, picnics, brunch at the Ramada for seniors and parents Sun-Commencement Day and customized Senior Class 18 oz. mugs that will go on sale in the Union Feb. 20-26, and this Friday assorted Valentine candy will go on sale in the Union. Any and all Seniors are invited to bring more ideas to the class meetings every Sunday at 7 p.m. in the Job Room in the Union.

## B.B. King; Some No Frills Blues

by Howard Altman

If you closed your eyes and listened, you might have seen Eric Clapton or Jimmy Page on stage at the Strand. When you opened them, all you saw was a fat, old man making love to a guitar named Lucille.

Lucille and B.B. King paved the way for up and coming guitarists of the 60s and 70s and Friday night, the Granddaddy of Blues music trucked into Ithaca with his ten piece band. Band leader Cal Owens opened the show, leading the B.B. King Orchestra through 15 minutes of bebop before he introduced The King of the Blues Guitar; Mr. B.B. King.

At 56 he is definitely not too old to rock 'n' roll. He sauntered on to the stage with a smile on his face, not showing the strain of playing 310 nights a year. Immediately, he took control of the stage and the audience, as he slid into the riffs of Caledonia. From the first note, the crowd belonged to B.B. and he carried them from the frantic heights of his rock and roll, to the depths of his blues. King brought Lucille to life, the way no other guitarist could. He made her sing, cry, laugh and shout and the audience was out there, answering Lucille back.

"Get on down," B.B. shouted at the audience. "Get on down!" By this time, billows of smoke were rising to the top of the roof, and the effects of various potables were beginning to show, as people began dancing in the aisles. B.B. took the crowd down with his most fearful blues.

As B.B. wailed, his band swayed back and forth, moving with the groove. The emotional output on stage was delivered to the audience at maximum decibel. Although the crowd came to see King his orchestra left its impression behind. Cal Owens took over as B.B. stepped back and let his band show their stuff.

Rhythm guitarist Leonard Gill showed how much playing behind B.B. taught him, following the master through riffs that would lose most heavy metal rockers. King also played off his horns, trading licks with tenor saxist Robert Garner and baritone saxist Andy Senegal. Drummer Tony Coleman provided a steady backdrop to the emotional leads of King and Russ Jackson went wild on the bass, filling in holes, pounding out walks and funking out on solos.

Although the blues are the

# John Hall Returns to Ithaca

by Michael Rinaldo

When John Hall, formerly of the Ithaca based Orleans band heard that he was playing at the Arcade, he knew that it would surely snow. Well Sunday night, snow it did and I hope that was the only reason for the poor showing that evening. For certainly I could not have been a lack of talent of his part.

Besides his ability to write and perform beautiful love songs, and his ability to create socially significant statements in musical form, John Hall is a most versatile guitarist. Playing two sets; the first acoustic, the second electric, Hall proved to be a entertaining individual.

Accompanied by a friend who played organ and sometimes trombone, Hall jumped right into the show by opening with the Orleans hit "Dance With Me." He followed this with some soft

and melodic love ballads. Despite some audio problems, Hall continued with "Good Enough" and the Beatles "I've Just Seen a Face" off of "Rubber Soul." The set ended with Hall's most popular songs from No-Nukes Fame - "Plutonium is Forever" and "Power."

It was in the transition to electric where Hall's versatility as a guitarist became most evident. With high intensity jamming and well conceived guitar leads, Hall expressed a side to his talent not widely known. Most illustrative of this capacity occurred during his version of Hendricks "Have You Ever Been Experienced." Playing the guitar between his legs and behind his head, Hall pumped out some high energy chords.

The most entertaining aspect of this show was during the half hour encore. Chuck Berry's "Hail Hail Rock &

Roll" and "Kansas City" by Jerry Lieber roused the relatively mellow audience. From these rock classics Hall slid into a fine medley of songs including "Shari" by Frankie Valli, "Stay," "Groovin," "Having a Party," and the powerful "Not Fade Away."

In all, despite the exceptional performance, I left the show with a feeling of sadness. When such a talented performer as John Hall comes back to his starting ground to play he should be greeted accordingly. To come out and see a very sparse 150 people must have been slightly disheartening to this fine individual. If you were one of the select few who showed up, you are truly lucky. If you choose to stay home, you missed a fine and versatile show. If and when he returns, don't let it happen again.

## Bouncing and Bopping With B. Willy Smith

by Michael Rinaldo.

A few months back I had the pleasure to catch a unique and energetic warmup act. Generally one desires the warmup act to do just that - warmup. But this group was so successful that the crowd actually called them back for more. This act came to the point of practically upstaging the top billing; George Thorogood. When they had regrettably finished, I hoped for the day when I'd see them again. Well, that day came on Thursday night at the Arcade when the B. Willy Smith Band shook the beams of the old I.C. gymnasium in a return appearance.

B. Willy Smith is a group of functioning old high school

buddies from New Haven, Conn. who just happen to be able to create some excellent music. With a debut album; entitled "B. Willy Smith" hot off the presses, this band has established itself as a group that is ready to move up.

If you like good-old time 50's and 60's songs, then this band is for you. From the moment that first note reached my inner ear, I felt compelled to move. Whether it be to snap my fingers, tap my foot or just plain sway, I moved. The music is so lively and buoyant that only a Cornell Med School cadaver could be excused for staying still.

# Film Clips/The Incredible Shrinking Woman

by Bill O'Donnell

The California world of "The Incredible Shrinking Woman" is full of hot pinks and aqua blues and hazy sunshine that glints off of the cars in supermarket parking lots.

Throngs of shoppers clog a landscape of storefronts, idly testing a new plastic-eye of a TVcamera.

Into this hotbed of blase commercialism stumbles the harried Pat Kramer (Lily Tomlin), a suburban housewife accompanied by a rowdy entourage of obnoxious brats. Without a moment of consultation, she is force-fed the elastic cheese spread and is soon on her way to experiencing the biggest (or smallest) happening of her life. Even as she drives through her neighborhood--Tasty Meadows, where every neighbor calls out the virtues of some product as she passes by Pat, is well on her way through the Oz of American materialism.

You see, Pat has become the victim of a series of chemical side effects, and has literally and symbolically begun to shrink into the tacky quagmire of American life.

Unfortunately, satire isn't the only thing that the creators of "Shrinking Woman" wanted to cram into their lighthearted revamping of 1957's "The Incredible Shrinking Man." Not only are we expected to chortle at the cleverly stylized sets of Pat's repulsively lovely home and the narrowminded doings of Pat's advertising executive husband (Charles Grodin) as well as her hyper-efficient neighbor Judith (also played by Tomlin), but we're also nudged to feel sorry for Pat when she's too small to have sex with anyone. And sometimes we're even asked to feel a little scared when the unusual array of stock villains plan to exploit Pat's misfortune to (yawn) take over the world.

Despite the inviting opening sequence at the supermarket, "Shrinking Woman" soon slides into a category of familiar current comedies: muddled themes and plots. The film's erratic shifts in time, which range from tedious exposition of the "suspense" plot to a slapstick climax reminiscent of "King Kong" become too frequent, deadening its comic impact and diluting its social commentary.

The movie would have been far better off to stick with Lily Tomlin throughout rather than wander off on other characters, the evil executives and scientists in particular. Tomlin looks great as the bewildered Pat, fresh and glowing in a dreamy, naive way, quite unlike her tense, pasty-faced Violet in "Nine to Five." Tomlin makes Pat's encounter's with a closet full of menacing toys or a sloth-filled garbage disposal genuinely entertaining.

Grodin turns in an adequate performance, but he has played this kind of role so often now ("Heaven Can Wait," "It's My Turn," and "Seems Like Old Times" to name a few), that he seems to be trying to create a new Academy Award category titled Best Performance by an Actor Playing a Plastic Person.

However, Jane Wagner's script seems to be the root of most of the film's problems, and if Wagner had spent less time thinking up bad puns (such as Grodin telling Tomlin to get off her soapbox after Tomlin finishes making a speech standing on a package of bar soap) and more time on creating a consistent mood, director Joel Schumacher would have been able to give the movie more than just a snappy pace.

Many of the film's best moments are the result of background, incidental material, like the skillful use of color in the costumes and

sets; Pat's crowd of gum chewing neighbors are gloriously costumed in a rainbow of polyester tennis shorts, jogging suits, and bikini tops.

The film has a keenly satiric look to it, not only in its fuzzy, laid-back photography but in the deft casting of supporting roles, the stand outs being TV's Mr. Whipple as a crotchety grocery store manager and Mike Douglas as himself (although I did wonder how Douglas felt about parodying his own image.)

The special effects are well handled, and Tomlin certainly knows how to make the best of them sitting all alone in a doll house with a Ken doll, she makes the movie's comic potential come to life. But all too frequently "The Incredible Shrinking Woman" is dishearteningly predictable, in spite of a few good laughs that keep your hopes up until they finally shrink away.

## \* B.B King; Some No Frills Blues at the Strand

continued from page 7

easiest music to learn to play, it is perhaps the hardest to master. No one can take a few chords and make them effect an audience like B.B. King. He puts his feelings into his music and gives meaning to the notes. As impressive as he was Friday, it would have been nice to see the man at his prime, delivering his message of the blues to crowds unfamiliar with the names of Beck, Clapton, Page and all others who have directly benefitted from Kings loving relationship with Lucille.

The King show was primed by a warmup act that had its roots in the Chuck Berry, Bill Haley Rock and Roll era.

Duke Robillard assaulted the crowd with his rocking guitar riffs and got them up and rowdy.

He opened with a tune called "Cooking" and that's exactly what the old man did.

He looked old enough to be my father, but he rocked the blues like a kid. He was bopping around the stage, sweating under the hot lights, and getting the audience hot.

He closed his act with an

original called the T. Bone Boogie. Vern Lecow pulled out an acoustic bass and got down on his knees, put the guitar behind his back and the three of them went into a wild jam. The crowd went wild as

Robillard began to chew his strings, keeping up the frantic pace.

The only problem Robillard had was the distortion he got from his overworked speakers, that were blasting

past their capacity. If you ever get the chance to see Duke Robillard, and you are in the mood for some straight forward rowdy rock, then by all means check this act out.

bass, Steve Beldino on guitar and Jerry Connolly on harmonica and drums. From Bob Bsettger comes the sax with Mike Codavin playing some

exceptional piano. Playing many of their own songs as well as some rock classics as "Shake, Rattle, & Roll," "The Game of Love," and Canned Heat's "Down to the Country," the evening proved to be highly laudable. While the first set highlighted more original tunes than the second, the performance in it's totality was excellent.

By the middle of the first set

the floor was filling with dancers and didn't stop until the show was over. A version of "Mac the Knife" sent the crowd bouncing and bopping around the club. Perhaps the best effort though, came with "Wooly Bully" and the 60's hit "Secret Agent Man."

All in all, the night was most entertaining. If you missed the show, despair not, for the album is in town. So go out, pick up a copy, and have yourself a party. With B. Willy Smith on the turntable, you're sure to have a wild time, because they're just plain fun!

# Ithaca College: One Institution's Triumph

The following is a contributed satire.

By Kristen E. Ebert

Inflation and financial hardship have plagued educational institutions all across America, and even our own beloved Ithaca College has not escaped the onslaught of economic upheaval.

Colleges and universities everywhere are being forced to reassess their priorities, and

ingenious plan of action and perhaps offer some of my own suggestions.

I would have to say that the recent move by Ithaca College to dismiss the entire faculty is one of the best made by this institution in years. The school, during a routine examination of the yearly budget, discovered that something definitely had to give. Ninety-six percent of the

silenced when the administration publicly humiliated them and denied them the right to vote in the upcoming "Garbage Can Placement at Ithaca College" Committee membership election.

I, and many others, feel that applause is due the victors, who are a fine group of intelligent, responsible people. That vital extra three percent in the lan-

student enrollment at Ithaca College will also have to be limited. I personally would suggest the admittance of 100 students, tops, and I would also suggest that the College charge them 100,00 dollars per annum. These students could be chosen by evaluation of their aesthetic appeal, assessment of their wealth, and by casting lots. The considerable sum of money that would result from this could be used, in addition to financing the agrarian beauty of the College, to restructure the academic programs to allow for a horticultural concentration on all of them. Of course, all actual learning would have to be purely up to the students, as they would be without faculty supervision completely. Some examples of possible courses are: Psychoactive Slugs, Anatomy and Physiology of Astro-Turf, General Plant and Tree Psychology and Flora Motivation, and for the fun of it, I Like Plants and Weeding For The Minority-Conscious. The possibilities are endless, and the fact that all learning materials would be cultivated by the College is a highly enticing feature of this plan.

In addition, with any discretionary income, the College ought to—and it is rumored that it will—erect a plastic statue in the student union games room which will honor all the faculty who will shortly cease to clutter the campus and the budget.

I talked to one open-minded, progressive school dean (who requested anonymity until his book comes out early next year), and he remarked that he and several of the others had, in fact, long felt that Ithaca College is no place for those who are incapacitated by a university degree. "Professors are really a drag," he said. "They really get in the way all the time, questioning things like tenure policy and academic standards. Frankly, we don't need that kind of hassle here at I.C., and I for one think that these people are an unnecessary expense that we could have saved ourselves a long time ago."

I was able to speak with one other school official with a slightly modified viewpoint, who claimed that "teachers do have some valid qualities that simply can't be ignored. No one else looks quite so good smoking a pipe, and Lord knows I don't have time to read all those books." (Incidentally, it has since come to my attention that this particular person has persuaded to move his wife, children, and worldly possessions to Tucson, Arizona. A mere coincidence, one can be sure.)

But the main contention among coherent, progressive administrative members is that Ithaca College has long been due for a major overhaul. Until the present, the College has not fully utilized its physical resources, and it is especially in this area

*continued on page 11*

major revamping of budgetary plans is occurring right and left. Ithaca College, the very pillar of educational concern and progress, recently embarked on the enforcement of a policy of "non-100 percent tenuring" in an effort to prevent academic stagnation and to allow conservation of finances. This is certainly admirable, and the College's consequent decision to let go an important—but untenured and therefore cumbersome—faculty member was nothing short of award-winning. But this was not enough, and it wasn't until Ithaca College's most recent action that my faith was restored in her ability to honorably pull herself up out of the academic, economic abyss and recognize truly valuable educational priorities that have been hiding for so long. I would like to share with you this

bill paid by each student went towards the landscaping of the College, three percent to faculty payroll, and the remaining one percent to such miscellany as liquor for the Pub, innovative sugar packets for the food service, and frisbee competitions, the biggest of which is the muchlauded Vidal Sassoon. Open. Consequently, a joint session of the President and Deans (the trustees voted in absentia) decided that the predominant concern of the College, as evidenced by the budget, was clearly undeniable, and they came to the obvious conclusion that the dispensable item was the faculty. Of course, there was the usual bothersome dissension among the board members, several of them arguing against the validity of this decision. These naysayers, however, were—thank heaven—

escaping sector of the budget will allow the College to install countless more red sumac trees, weeping willows, and crabapples. Ithaca College can display a better grade of daffodils, and the benefits reaped by the lawns from the additional manure purchased will be overwhelming. Plans are already underway for the formation of a committee to select new locations for additional creeks and bridges, and arrangements are being made with an artificial cattail contractor in Bethesda, Maryland. Ithaca College officials have revealed that, according to the prediction allowable by this "Megaplan," in five years the school will be suitable for entertaining foreign dignitaries, White House officials, and visiting Grange members.

Understandably, because of the decrease in faculty, the

that changes must occur if full profit and productivity are desired. Perhaps—although I hesitate to propose this, as it may yet be too revolutionary for this educational era—the grounds could be converted to a huge botanical garden. Admission could be charged daily, with a raise in rates on days when dignitaries were in attendance.

This would provide another valuable source of revenue for Ithaca College. Such monies could be used to gather interest through investments in upstanding corporations such as Proctor and Gamble and Faberge. In fact, through careful management of accounts and budgeting a revenue, Ithaca College could achieve complete self-sufficiency in 15 to 20 years,

thereby enabling dismissal of all students as well as teachers, and allowing total freedom from all encumbrance and unnecessary obligation.

It seems that several of the administration members would agree with me on this last suggestion. In fact, one of the more prominent board members remarked to me, "I've always envisioned this place as an

aviary, myself, with little robins and larks flitting about continuously."

I for one am extremely proud of Ithaca College, and I am equally positive that no one in his or her right mind would disagree with me or venture to say that Ithaca College isn't doing its best by its students and community. Upon examination of this entire issue, it is plain to

see that Ithaca College is wending its way toward a maximal utilization of human and financial resources, and toward educational opportunities that will be beneficial and pleasing to all, except possibly to those who are afflicted with a cultural disorder, such as an innate desire for learning, or some other irregularity.

## College Survival in the 1980s

Milwaukee, WI (I.P.)—Higher education critic Professor Lewis Mayhew of the Stanford School of Education believes that colleges most likely to survive in the 1980s are those which remain faithful to their traditional goals. In a paper delivered to the Association of

Financial Officers of Jesuit Colleges and Universities, he noted: "Each institution should search for clarity its traditional role and traditional clientele." Major changes should be made only when there is "persuasive evidence" its past role "is no longer

viable." Institutions should undertake new missions and new programs only if they are consistent with their tradition and they have the necessary intellectual and fiscal resources.

"A number of liberal arts colleges have tried to enter such fields as health sciences or paralegal work to replace teacher preparation, which has suffered declining enrollmen-

ts," Mayhew said. "For the most part, such brokering of new activities which were not consistent with the intellectual strengths of the institution 1) weakens the image and attractiveness of the institution to its traditional clientele and 2) very likely offers intellectually deficient programs to the public."

With the exceptions of top prestige universities or church-related colleges in the evangelical Protestant persuasion "there are relatively few clearly defined" positions in the market which appeal to a sufficiently large clientele, he observed. An integrated student aid program is one where most experts and institutions agree colleges can be helped. Federal basic education opportunity grants are viewed as the keystone.

# Selective Service Does Trial Run

WASHINGTON, D.C. (CPS)—Last November, while you were studying, sleeping and worrying that military registration might be a prelude to a real draft, the Selective Service System was indeed preparing draft notices for 35,000 unsuspecting young men chosen by lottery.

The lottery was only a "practice," Selective Service spokespersons say. The draft notices were never sent, and the list of men was subsequently discarded.

The practice was part of the Department of Defense's "Proud Spirit" mobilization exercise, carried out by 80 government and military organizations, one of which was the Selective Service.

Within 24 hours of the starting time on Nov. 6, the service had reviewed its computerized list of registrants, held a lottery, and fed the names of 35,000 "inductees" into a Western Union computer.

The computer, in turn, would have sent Mailgrams to the 35,000, if the exercise hadn't been stopped at that point.

The next two weeks of the exercise period were spent setting up mock state headquarters

and area offices to carry out the draft, and serve as induction centers in the event of a real emergency.

"We were rather proud of our results," recalls Dr. Herb Puscheck, the agency's associate director for Plans and Operations. "The Defense Department was assured that our system works, and that we can induct efficiently in case of emergency," Puscheck explains.

The November mobilization, however, was the first one in which the Selective Service has fully participated. "We've been required to be a part of it in the past," adds Selective Service spokesperson Joan Lamb, "but this is the first time we've physically held a lottery and drawn names."

The reason is that "this is the first year the Selective Service has been revitalized, and has the capability to do it," Lamb notes.

Asked if the mock draft was held with any special precautions or sensitivity to public worry that military registration—begun last summer and resumed in Jan., might lead to a real draft, Lamb said, "Oh no. This was just a regular Department of Defense exercise."

System Director Bernard Rostker brought in judges from the U.S. Bureau of Standards to "insure the fairness of selection," and to critique the procedure in general.

The observers liked what they saw, Puscheck says.

"The Defense people were interested to see that our system is

fair, open, and statistically sound," he commented. "They recognized our pains to protect the rights of the young men involved."

Rostker was quick to point out that the computer tape holding the names and addresses of the 35,000 mock inductees was removed from the Western

Union system before the draft notices were actually printed.

A tape with names of 715 military reservists was substituted in the computer. The reservists, previously alerted of the forthcoming notices, received the Mailgrams on the third day of the exercise.

## SAB Sponsors Laughs

By Michele DeStaffan

Be prepared to laugh tonight at 9 p.m.! One of the many Winter Carnival events that will be held this week is sponsored by the SAB Speakers Committee.

Last fall, the committee, under the direction of David Ogilvy, sent out a campus survey to find out what students wanted to see on campus. The overwhelming response was comedy!

In answer to that, the committee, composed of Penny Downes, Barbara Piudick, Wendy Fast, Lori Wiley, Nancy Hirsch and Lynn Ainsley, set out to find some comedians. Ogilvy said that they had a budget problem

and were trying to get a big name act.

However, they started dealing with agents and came up with many different alternatives.

They came up with the best and brightest of New York's talent showcase clubs. The comedians for tonight's performance are Danny Laudor, Carol Leifer and Larry Miller. They have played various clubs including the Comic Strip, Improvisations, and Catch a Rising Star.

On Feb. 9 the committee held open auditions for all

students who were interested in being in the opening act for this night of comedy. Making their I.C. debut will be Peekabunnell and Bill Meinel.

The 26 people involved are magically transforming the Union Dining Hall for this gala event. A few surprises will be the addition of a stage, mikes, spotlights and candles for ambience.

There will be an admission charge of \$1 at the door. There will be table service, and beer and wine tickets can also be purchased, four for a \$1. I.D. will be required.

graduate," continued Macksoud, "but I think they have a responsibility now to respect other people's rights and they also should not cut off their educational process once they get off campus."

"I own a bar," (Ruloffs) said Macksoud, "and I like people to have a good time, but with a group mentality sometimes things can get carried one step too far. I would hate to see an incident at the bagel shop that started as a prank to develop in-

to a point when someone was seriously hurt. It's really just a small nucleus of people who get the trend for these things. Society needs outstanding people and not people who just stand out."

Macksoud concluded by saying, "All I ask is that these people return the respect and courtesy they receive from my employees." Macksoud also said he thanks the majority of I.C. students who appreciate the shop for their business.

## Basketball Prepares for 4-Game Homestand

By Danny Smith

A young basket ball team is prone to inconsistency. For example; turnovers, poor rebounding, and defensive lapses are a big part of games played. The bright side is that at any point during a game this can all change, and a young team can showcase offensive and defensive brilliance, virtually dominating its opponent. Such was the case this past week as IC posted two home victories before dropping a hard fought 10 point loss to Hamilton on the road Saturday night.

The week's work started on Wed. Feb. 4 against ICAC foe Alfred. The Bombers, playing sloppy for almost the entire first half, relied heavily on the efforts of Tod Hart. Hart connected on two key 3 point plays to help pull IC into a 30-30 halftime tie.

The main problem during the first half was a tough-to-penetrate Alfred zone defense that forced Ithaca to be patient and rely on its outside shooting. The remedy was to

get the fast break going and beat Alfred's defense up court.

The second half started slowly, but when point guard Jamie Frank got the fast break rolling, things started clicking in the scoring column. IC's three big men: Hart, Quesnel and Clark, benefited from Frank's passing greatly as the passes accounted for 56 of Ithaca's 82 total points. Fifteen assists in all were credited to Frank, and that tied the IC single-game assist record. Ralph Boegel, Frank's back-court mate, played the unsung hero as he contributed 10 tough points mainly because of hustle and hard-nosed play. The bottom line was a well deserved 82-75 victory, getting the Bombers back on the winning trail.

Frank's tying the assist record is worth more mention, because assists are what most point guards cherish. It is an indication that teammates are scoring, the fast break is working, but most importantly that the point guard role as

Frank pointed out, "Assists are important, but I must also be the quarterback of the team, recognize and react to a wide range of defenses, do most of the ball handling, and play defense."

Playing defense is interesting because in IC's two home wins, Frank played man-to-man against the opponent's top scorer while his teammates played a four-man zone against the remaining players (in basketball jargon a box-in-one).

Playing man-to-man defense requires a lot of hustle and desire, not to mention the pressure to stay in good defensive position the entire night. One would think that putting not only a big offensive, but now a defensive burden on Frank's shoulders would be too much. Not so, because as Frank admired, "I get into the flow of the game more playing man-to-man. In addition it frees me to receive the outlet pass and get into the fast break." The position of point guard is vital, and Frank is

doing quite well.

As tough as Alfred's zone was on Wednesday, RPI's man-to-man defense took no second fiddle. The Engineers, perhaps not as talented as Alfred, played fundamentally well together and gave the Bombers a very competitive game. Playing kind of hot and cold the entire night, IC escaped with a narrow 63-61 victory. Big guns for the home team were Tod Hart (25 pts.) and Mike Quesnel (16 pts.).

IC's full court press created several RPI turnovers, which when cashed in for points helped greatly in the win. The tandem of Pat Clark and Mike Quesnel at the front end of the press, tipped, stole and caused many bad passes by RPI.

The play of Mike Quesnel for the two game homestand was very impressive. With most teams concerned with stopping Hart, Quesnel lessened the defensive pressure on Hart with scoring results of his own. 32 points in the two games greatly helped to free Hart, who himself compiled

46 points over the same stretch.

On Saturday night against New York State's fifth ranked Division III team, the Hamilton Continentals proved too strong a force for the Bombers to overcome. In front of a capacity crowd, Hamilton's inside game wore away at the visitors and the result was a 93-83 loss. A team however doesn't get better by playing non-league schedule padders. Hamilton is a quality team and IC should benefit from playing such a squad.

Now 12-7, and 4-3 in the ICAC, the Bombers now have time to prepare for a four-game homestand. It starts off with conference rival Clarkson Friday (8p.m.), St. Lawrence Saturday at (3 p.m.), non-league Division II Hartwick Monday (8 p.m.) and ends with conference opponent RIT on Wednesday at (8p.m.). It's a homestand of great opportunity, and certainly one of optimism for the Bombers.

## Track Sharpens Edge for Spring

By Richard Kassirer

The Ithaca College track team is once again tuning up by competing indoors to "sharpen the edge" for the spring.

Mike Donnelly is in his second year as the track coach, as well as the linebacker coach of the Bombers. Together with his assistants, Tim Pendergast and Jerry Boyes, they have the team competing in five meets in approximately one month.

Donnelly believes that along with his strict sprint work, competition in training is very important because it gets your adrenaline flowing and performance improves. He continues by saying that "the score doesn't really matter, we are just filling in the holes to get people in shape."

The two teams, indoor and outdoor track, are really separate sports here at I.C., but there is a connection between the two. Donnelly says that although indoor, or winter, track is not mandatory in order to participate in the spring, he says, "I let those athletes know that their chances are slimmer if they don't run in the winter. If they want to train with the indoor track team but not appear in the meets, that's ok."

IC hurdler practices at Cornell.

With two weeks to go before the ICAC Championships at RPI on Feb. 20-21, Donnelly thinks he has found some real talent. Two freshpersons, sprinter Mike Egan and Doug Kaplan, a long jumper, have shown potential. Donnelly also mentioned miler Kevin Bishop, and Mike Page and Lester Maslow, both sprinters. Donnelly explained that although the team lacks depth, there has been great improvement in the sprint and field events.

The main problem the team faces during the winter is the weather. Ithaca does not have facilities to house an indoor track team and must make due with what Cornell has to offer.

On Tuesdays and Thursdays the team travels to Cornell's indoor track for "interval work," a mix of sprints and half speed running. On the other three days the team "runs on the roads" individually. When asked if he would like to see an indoor track built here on campus, Donnelly said, "It would be great, but you must make due with what you have."

The track team is making due, competing in the ICAC's and moving right into the spring season on March 14th.

## Basketball Hopes For State Tournament

By Amy Doonan

Will they or won't they? With two weeks to go until the State Tournament, the Ithaca College women's basketball team still has a shot at an invitation to play in it, despite their 8-8 record.

Coach Natalie Smith commented, "None of the state teams have really dominated this year. Everyone has suffered key losses, so we still have a chance."

However, Tuesday night's loss to St John Fisher, 69-65, didn't help the Bombers' case. Fisher,

now 17-4 on the season and one of the top NYS contenders, jumped out to an early 11 point lead on the strength of eight points by forward Margaret Casper.

Ithaca was at a height disadvantage with only one player over 6'0 to Fisher's three six footers and still managed to close the gap to seven, 30-23, at the half.

The Bombers got off to a slow start again in the second half, and Fisher built up a 13 point lead. But then Faith Colter went to work, scoring 22 of her game

high 32 points in the second half, including a three point play that helped I.C. cut the lead to 63-60 with 2:45 to go.

Colter dropped two free throws at 0:14 to make it a two point contest, 67-65, but that was all she wrote as Fishers Robin Mortenson sank two free throws with three seconds to go.

On Saturday, Ithaca pulled out a big win over state rival Canisius, 75-69.

Both squads were plagued by turnovers throughout the first *continued on page 16*

## JV Basketball Takes Close Match vs. Alfred

By Howard Altman

The IC JV Bombers pulled out a last minute 56-54 victory over Alfred College Feb. 4 as Jim Zabransky came off the bench to control the boards.

The Bombers held the lead until 12:31 of the second half, when sloppy play enabled Alfred to control the tempo of the game. The Bombers were unable to keep up with Alfred's run and gun offense, which had suddenly come to life after a dismal first half. Alfred guard Joe Cesarano sparked his team's resurgence, scoring eight of his fourteen points in the second half. Cesarano was a pest on defense as well, stealing the ball and breaking up the Bomber's passing game.

The Bombers jumped off to a quick 7-0 lead in the first half as their passing game picked apart Alfred's half court trap. IC controlled both boards, and the offense made almost every shot count. Af-

ter leaving the locker room with a five point halftime lead, the Bombers got a little careless and let Alfred take the play to them.

With 3:09 left in the game and the Bombers down by four, Gene Sackett left the game with an ankle injury. As he was rolling on the floor in agony, Coach Jim Mullins put in Jim Zabransky. Immediately Zabransky made his presence felt, dominating both the offensive and defensive boards allowing the Bombers to control the pace of the game down the stretch.

A bucket from Dave Malin tied the game at 54 with 1:57 left, and John Gardner iced it for the Bombers with a jumper from the baseline. That gave the Bombers 56-54 lead, which they held onto for the rest of the game.

Sloppy officiating marred the game in the early going. With the refs missing a lot of fouls that should have been *continued on page 16*

## Bowling Team Wins Match

By P. McGann

The Ithaca College Women's Bowling Team won the match which I.C. hosted last Saturday. Ithaca scored a total of 3306 pins to beat Cornell (3285 pins), Oswego (2855 pins), and Elmira (2844 pins).

The high game, a 235, was

bowled by Ruth Azen, whose four game series was 660. Cathy Haight had the highest series in the match - an outstanding 734, making her a 183.

Next Saturday, the bowling team will participate in an invitational match in Oswego.

## Budweiser KING OF BEERS. ATHLETE OF THE WEEK

Lora Newbery won the 100 yard breast stroke event with a time of 1:18.006 over St. Lawrence's second place time of 1:18.017, Saturday. Newbery's close first place won the meet for Ithaca, 71-69.

"There was a lot of pressure on her because it was the end of the meet, and St. Lawrence would have won if she had taken second," said Coach William 'Wally' Ware. "This was her best meet. She's hard-working and a good all around swimmer," he said.

Newbery also won the 50 yard breast stroke and the medley relay and took a second in the 100 yard individual medley.

She holds the I.C. record in the 100 and 200 yard breast stroke and the 400 yard medley relay.

For her achievements and dedication, The Ithacan, honors Lora Newbery as Athlete of the Week.

# Ithaca Swimmers Top St. Lawrence and Buffalo

Ithaca diver Todd Metcalfe.

By James C. Burns

They finally did it. But it wasn't easy.

The Ithaca College men's swim team finally defeated visiting St. Lawrence University's aquamen for the first time in I.C. history, 60-53.

En route to defeating SLU, the third member of the triangular dual meet was U. of Buffalo, who also took it on the chin from William Ware's boys.

The hard fought pair of simultaneous victories boosted the watermen's mark to 9-3,

eclipsing the all-time record for wins by an Ithaca swimming squad. The Bombers will have three more opportunities this season to improve that record, a chance to break into the dozen victories category for the first time.

Defeating SLU wasn't exactly a cakewalk. It was a seesaw battle that saw the lead exchange hands several times up until the final event. A scant two seconds clinched the victory for the Blue-and-Gold as relay-man Jim Bernhardt reached the tiles before the second-closest SLU man could.

A member of the team surmised that the margin of victory was determined by "who had the better (and more strategic) line-up". Apparently, things went Coach Ware's way.

The completion of the swim team's schedule is: an away meet last night at Alfred (at presstime, there was no score available), Genesee away this Saturday and—the climax of the season—an away meet at Binghamton on Sat. Feb. 20.

After that, the team looks forward to Nationals. Judging from their success so far, Nationals doesn't seem like such a big deal...

IC's Tim Wilmont, 158 lbs., rides his opponent on the Binghamton team.

## IC Wrestles Binghamton

Of six wrestlers entered in the meet against Binghamton Tuesday, three pinned their opponents, and there was one decision win.

Ithaca was unable to enter wrestlers in all of the 10 weight classes because of injury and illness.

Ron Schenk, 150 lbs., Tim

Wilmont, 158 lbs., and Bill Bray, 167 lbs. pinned their opponents, scoring 6 pts. each for the team. Ralph D'Avey, 142 lbs. won by decision, scoring 3 pts. for the team.

The team travels to St. Lawrence for the ICAC championships Saturday.

## Gymnastics Outperforms Two Teams In Dual Home Meet

By Sheryl Murphy

The Ithaca College Women's Gymnastics Team continued their winning streak last week by defeating Northeastern and East Stroudsburg in a dual meet on Sat., Feb. 7. Coach Harriet Carnes felt it was a good meet, and will really help morale for the Cornell meet (Feb. 10) which has always been a tough one.

In their second meeting of the season, Ithaca defeated East Stroudsburg by a score of 123.0 to 115.95 after having lost by only four points in their first meeting.

On the vault, Ithaca took four places with Susie Chapin in first, Kim Garbinski second, Linda Johnson third, and Judy Bell fourth.

Sue Bourne set a new school record on the uneven parallel bars with a score of 8.80 to beat the old record of 8.55. Johnson finished second and Sheri Speling took third. Ithaca captured the top three spots in the floor exercise led by Chapin in first place, Johnson in second, and Maria Castrataro in third.

Sophomore Chris Ficken led the way on the balance beam

for the Bombers with her second place finish. Chapin took fourth in this event against E. Stroudsburg.

Johnson set a new career record for herself in the all around event with a score of 30.35. This won her first place against E. Stroudsburg.

The Bombers defeated Northeastern by a score of 123.0 to 120.9 in their first meeting of the season.

Chapin led the way to victory for the Ithaca women by taking first place in the vault, and third place in the floor

exercise and balance beam against Northeastern. "I believe she's the first person not ever to score below 7.0 on the team in dual meets," said Coach Carnes. "It's the first time in history I've had anyone that consistent on the beam." beam."

In vaulting against Northeastern, Ithaca also took second place with Garbinski's 8.4 and fourth place was captured by Johnson with an 8.3.

Bourne's record setting performance took first place in the uneven parallel bars. She was followed by Johnson in second and Speling in third.

Ithaca took second and

third places in the balance beam with Ficken finishing second and Chapin third.

Chapin was the only to place against Northeastern in the floor exercise where she took third place.

"The bars looked super," stated Coach Carnes. "We have good strength in the bars." The team also looked strong in the beam, averaging only one fall per person. "We're stronger in depth as well as the bars," said Coach Carnes.

This week the I.C. women will be taking on Cornell on Feb. 10, and Canisius and Slippery Rock in a dual meet on Feb. 14.

## Meetings and Lectures

The Ithaca College Feminist Series is pleased to announce their next speaker Professor Marilyn Young from New York University, History Department. Her talk is entitled "Women in Post-Mao China." She will speak on Thursday, February 12, at 8:00 p.m. in Science 202, Ithaca College. Professor Young has published and spoken widely on the question of Women and China. Her lecture should prove most interesting given the recent changes in China and the trial of the Gang of Four. Open to the Public.

There will be a meeting of economics majors, minors and anyone else who is interested on Friday, February 13 at 4:00 in Science 111. There will be discussion of course information, preregistration information, and an update on the economics-management major.

Impressions of the People's Republic of China slides and commentary from a recent visit by Prof. Janet M. Fitch, Anthropology will be on Monday, Feb. 16 at 4 p.m. in Textor 101. It is sponsored by the Anthropology Department. Everyone is welcome.

Professor Fitch was in the People's Republic of China for two weeks last November. She was part of a team to interview prospective graduate students who wish to study physics in American universities. The team was comprised of two American physicists and their wives, and traveled to 4 major cities in China. The interviewing provided an opportunity to talk with students and professors from several universities.

This slide presentation includes scenes of everyday activities in the city and the countryside, as well as some of the famous tourist attractions.

The catholic community of Ithaca College will sponsor an Evening of Reflection on Friday February 20, 5:30-10 pm. The program, entitled "To Be A Man/ To Be A Woman", deals with sex roles and gender identity. For more information and reservations call 274-3184, or stop by the Catholic office on the ground floor of Muller Chapel.
